

Annual Sales Report 2026

Comprehensive analysis of sales performance and profitability based on the Power BI dashboard

Period covered: Jan 3, 2014 - Dec 30, 2017

Prepared by: AHMED - Business Intelligence

Report date: July 4, 2026

Scope: All categories, all regions, all customer types

1. Key Performance Indicators

This section summarizes the headline sales metrics for 2014-2017, which form the basis for the rest of this report.

9.994K Count of Orders	539K Sum of Shipping Cost
4.12M Sum of Tax Value	3.37M Sum of Discount Value
6.71M Sum of Profit Value	33.95M Sum of Total Sales

Comparing total sales (33.95M) to total profit (6.71M) gives an approximate overall margin of **19.8%**, after tax, discounts and shipping costs.

2. Performance by Region and Gender

Profit Value by Region

Region	Profit Value	Note
West	2.1M	Highest profit
East	2.0M	Strong performance
Central	1.5M	Average
South	1.0M	Lowest - needs review

Total Sales by Gender

Male		22.53M
Female		11.42M

Male customers account for 66.37% of total sales vs. 33.63% for female customers.

Count of Orders by Region

Region	Order Count
West	3,203
East	2,848

Central	2,323
South	1,620

3. Performance by Category and Sub-Category

Total Sales by Sub-Category

Phones		5.0M
Chairs		4.5M
Machines		3.4M
Copiers		2.9M
Tables		2.9M
Storage		2.8M
Binders		2.6M
Accessories		2.3M

Profit Value by Category and Sub-Category

Category	Sub-Category	Profit Value
Technology	Phones	986.3K
	Machines	666.2K
	Copiers	633.1K
	Accessories	452.2K
Furniture	Chairs	906.7K
	Tables	576.0K
	Bookcases	~300K+
	Furnishings	-
Office Supplies	Storage	541.3K
	Binders	477.8K
	Appliances	365.2K
	Paper	218.1K
	Art	85.5K

Category Performance: Sales vs. Profit (with Quantity)

Category	Approx. Total Sales	Approx. Profit	Relative Order Volume
Technology	~ 14M	~ 2.7M	Medium
Furniture	~ 12M	~ 2.0M	Small
Office Supplies	~ 10M	~ 2.0M	Largest (highest order volume)

Note: values in this chart are approximate, based on the visual scale in the original dashboard.

4. Sales and Order Trend (2014-2017)

Year	Total Sales	Order Count	Profit Value
2014	8.0M	1,993	1.63M
2015	7.2M	2,102	1.41M
2016	7.9M	2,587	1.61M
2017	10.8M	3,312	2.05M

Sales Variance by Region Between Years (Waterfall)

Step	Change	Direction
2014 (Total)	8.0M	-
East	0.0M	Flat
West	-0.2M	Decrease
Central	-0.3M	Decrease
South	-0.3M	Decrease
2015 (Total)	7.2M	-
South	+0.7M	Increase
East	+0.1M	Increase
West	+0.1M	Increase
Central	-0.1M	Decrease
2016 (Total)	7.9M	-
Central	+1.4M	Strong increase
West	+1.0M	Strong increase
East	+0.5M	Increase
South	0.0M	Flat
2017 (Total)	10.8M	-

Smart Insights

- 2017 had the highest total sales at 10,821,238.15 - 51% higher than 2015, which had the lowest total sales at 7,166,408.57.
- Total sales and order count are positively correlated across years.
- 2017 alone accounted for 31.88% of total sales for the whole period.
- 2017 also showed the largest divergence between sales growth and order-count growth, with total sales reaching about 10,819,551.15 while order count grew more slowly in relative terms.

5. Sales Rep Performance and Payment Methods

Bottom 5 Sales Representatives by Annual Salary

Sales Rep	Annual Salary
Anne Dodsworth	50K
Xavier Martin	49K
Darren Powers	45K
Lena Hernandez	41K
Margaret Peacock	41K

A "Top 5" view is also available in the original interactive dashboard via the toggle button.

Total Sales by Payment Method

Payment Method	Value	Share
Credit Card	17.23M	50.75%
Cash	16.72M	49.25%

Profit Value by Year and Payment

Year	Cash	Credit Card
2014	0.88M	0.71M
2015	0.76M	0.67M
2016	0.81M	0.80M
2017	0.96M	1.01M

Credit card payments overtook cash in profit value starting in 2017.

6. Root Cause Analysis - Profit Decline

This section shows an automated analysis of the drivers behind lower profit value, using state, city, and sales rep as filters.

Top States Contributing to Affected Profit Value (Total: 1,000,853.24)

State	Profit Value
Florida	192,154.40
Virginia	165,317.71
North Carolina	163,821.05
Georgia	137,209.71
Tennessee	111,043.36

Key Influencers - When Is Profit Value More Likely to Be Low?

Two key segments were identified and ranked by average profit value:

Segment	Average Profit Value	Population Count
Segment 1	155.2	207
Segment 2	201.0	115

Profit Decrease Insights

- Category contributed the most to explaining the decrease in profit value.
- When category was "Office Supplies," profit value decreased by 749.93 compared to other categories.
- Recommend reviewing the pricing and discount structure for Office Supplies, along with the relatively weak performance of the South region noted in Section 2.

7. Summary and Recommendations

Key Takeaways

- Total sales reached 33.95M over the full period, with a clear acceleration in growth during 2017.
- The West region is the most profitable, while the South region is the weakest and needs an improvement plan.
- Phones and Chairs are the top-selling sub-categories.
- Payments are split almost evenly between cash and credit card, with a slight edge for credit card.
- Office Supplies is the largest contributor to profit decline cases, concentrated in several southern and eastern states.

Recommendations

- Conduct a dedicated pricing review for the "Office Supplies" category to reduce margin erosion.
- Investigate the causes of the South region's underperformance and consider reallocating marketing resources.
- Build on the 2017 growth momentum by increasing investment in top-performing channels and categories (Phones, Chairs, Technology).
- Track the "Key Influencers" analysis on an ongoing basis to catch future profitability declines early.

This report was generated based on the data shown in the "Sales Report 2026" Power BI dashboard.
